

JAHID AHMEDLI

SENIOR GRAPHIC & UX/UI DESIGNER | HEAD OF DESIGN

Senior Graphic & UX/UI Designer with 10+ years of experience leading design teams and delivering 100+ projects across fintech, e-commerce, SaaS, and branding. Proven ability to own the full design process — from strategy and wireframing to pixel-perfect execution — while aligning creative vision with business goals.

Currently serving as Head of Design, I've built and led cross-functional design workflows, shaped product identities, and created digital experiences that balance aesthetics with usability. Equally comfortable directing a team or rolling up my sleeves on complex UI challenges.

Seeking a Head of Design or Design Lead role where I can drive meaningful, user-centered products at scale.

EXPERIENCE

- **Head of Design & UX/UI Designer**

Investment Company · 2015 - Present (*Full-time*)

Led UX/UI and brand design for a major investment company — mobile apps, web platforms, and motion graphics. Maintained full visual identity across all digital and print touchpoints for 10+ years.

- **Senior Graphic & UX/UI Designer**

Algoritma IT Company · 2020 - 2025 (*Concurrent / Part-time*)

Spearheaded UX/UI across multiple mobile and web products. Built a scalable design system and conducted UX research to improve usability across all platforms.

- **Freelance Designer · 2013 - Present**

Delivered 100+ projects for clients across fintech, banking, and e-commerce — from mobile apps and web platforms to brand identities. Managed full project lifecycle independently.

Clients included brands from banking, FMCG, aviation, automotive, and real estate sectors. Experienced working with B2B brands across SaaS and tech sectors, delivering social media, web, and campaign visuals.
